

3/13 & 3/20

PYRAMID MODEL OVERVIEW

The research is pretty clear: social-emotional competencies are a key component to success in life and learning, and are most easily developed during early childhood. The Pyramid Model is a powerful framework early childhood teachers can use to promote social-emotional development and prevent challenging behaviors. During this overview seminar, participants will gain a deeper understanding of the importance of healthy social emotional development in young children, factors that influence behaviors, and causes of challenging behaviors in young children. A variety of tools, props, and activities will help participants understand and begin to implement each component of the Pyramid Model. *Accepted by DCDEE as 5 contact hours toward training requirements. (0.5 CEU)*
